ABOUT SARSON FUNDS

Sarson Funds is an independent provider of blockchain technology, cryptocurrency marketing, and educational services, specifically tailored for financial professionals and their clients. We believe that disruptive innovation deserves unbiased and thoughtful education. In collaboration with our investment manager partners, we strive to bring Wall Street standards of research, risk management, and transparency to digital asset investing.

WHY THE LARGE COIN STRATEGY?

DIVERSIFICATION

The Trading Advisor selects a portfolio of 10 qualifying large-cap cryptocurrencies that are strategically weighted using a modified market-cap weighting methodology. All potential holdings should be available with a US-based Qualified Custodian.

METHODOLOGY

The portfolio's weighting methodology is designed to overweight cryptocurrencies that are seeing rapid adoption and price appreciation. The portfolio is rebalanced and reconstituted monthly to ensure that Partnership capital remains diversified across a dynamic basket of large-cap crypto assets.

SECURITY

All holdings must satisfy proprietary "pre-regulatory" compliance screening and portfolio eligibility testing.

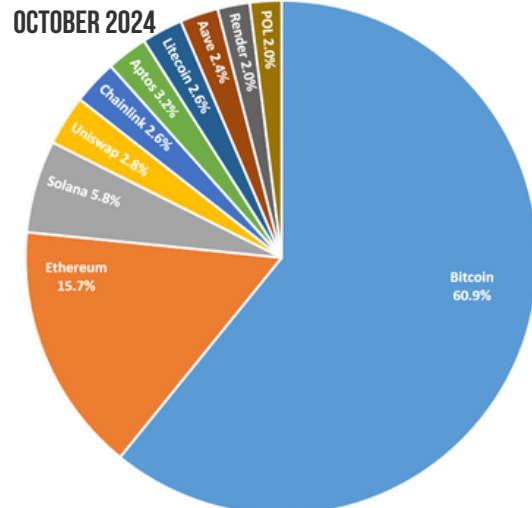

Partnership holdings are traded on Coinbase and held with Anchorage Digital®, a Federally chartered Crypto Bank and Qualified Custodian.
