ABOUT THE FIRM

Sarson Funds is an independent provider of blockchain technology and cryptocurrency marketing and educational services focusing on the financial professional community and their clients. In collaboration with our investment manager partners, we work to bring Wall Street standards for research, risk management and transparency to digital asset investing.

WHY THE LARGE COIN STRATEGY?

DIVERSIFICATION

Partnership assets are invested in 10 qualifying large-cap cryptocurrencies using a modified market-cap weighting methodology that is designed to overweight coins that are seeing rapid adoption.

METHODOLOGY

Investments are analyzed and traded daily; target portfolios are reconstituted and rebalanced monthly. Custom learning algorithms automatically reduce position sizes as risks increase.

SECURITY

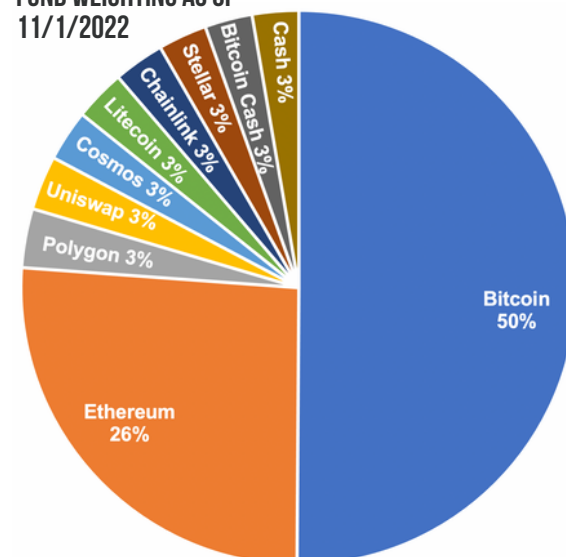

All holdings must satisfy proprietary "pre-regulatory" compliance screening and portfolio eligibility testing. BC Momentum Management serves as the Partnership's Trading Advisor.
